#### Artist Statement

**Angela Tirrell, fine painter and muralist**

I'm a painter who has created figurative and abstract pieces in public and private spaces across the United States. My drive to create works of artistic integrity is equaled by fascination with the complexity of the human condition.

I have always believed art is the most compelling reflection of all reality, can address the most horrific aspects or fantastically joyful experiences of life on earth in a way that provokes interest and reflection.

I like my role as reflector of life's vicissitudes - and hope to serve creatively as a conduit for communication and rapprochement.

This is why I paint.

To view Tirrell's decorative, restoration, and fine arts work, see her [web site](#).
